

Bashar Rimawi

AI Engineering And Data science

Aspiring AI & Data Science professional with a strong foundation in machine learning, data analysis, and Python programming. Currently enrolled in an intensive 6-month AI & Data Science training program at UniHance, developing expertise in AI-driven problem-solving and analytical skills. Holding a Telecommunication Engineering degree, I am passionate about leveraging AI and data-driven solutions to optimize business processes and drive innovation.

Address

DahiatAlRasheed, Amman, Jordan

Education

Bachelor's Degree in Telecommunication Engineering
Al-Balqa Applied University, College of Engineering and Technology | 2022 | GPA: 3.1/4

Language

- **Arabic: Native**
- **English: Intermediate**

experience

AI & Data Science Training | UniHance | Dec 2024 – Aug 2025
Completed 8-month AI training in data preprocessing and machine learning.
AI Training Program | Green Circle | Sep 2025 – Present
Developing AI and data analysis skills through practical projects.

Skills

- Programming: Python, Jupyter Notebook
- AI & Machine Learning: Data preprocessing, model building, evaluation
- Tools & Libraries: Scikit-learn, Pandas, NumPy, Matplotlib
- Soft Skills: Problem-solving, teamwork, communication

Project

Built an AI-powered job description enhancement API using FastAPI with clean architecture and Docker for deployment as part of an ATS project.

Certification

- - AI Certification — Ministry of Digital Economy and Entrepreneurship (in collaboration with Unihance)
